

Culture and Engaging Diverse Families in Early Education

The Multicultural Leadership Institute, Inc. is a private non-profit 501 c(3), founded in 1997, and dedicated to fostering multiculturalism and diversity at both organizational and individual levels to impact positive societal change. For over ten years, MLI has worked at all levels of educational organizations and institutions, as well as behavioral and mental health, public health, medical, dental fields, and across a variety of state agencies, and in corporate environments.

In 2008, we began working with area Early Childhood Educator groups towards meeting N.A.E.Y.C. diversity training objectives and the “Engaging Diverse Families” initiatives, and we have put together a great new program for these needs. Our diverse staff are training multicultural educators, and also parents whose families have had real world experiences with early childhood education. This has helped shape the program we have created for your center!

- Are you looking for **Multicultural or Diversity** training for NAEYC/CAEYC accreditations?
- Are you looking for strategies to achieve NAEYC’s initiatives around **Engaging Diverse Families**?
- Are you needing **technical assistance** for your organization’s own **cultural competency and diversity planning** or implementation?

Our training and technical assistance services are available year –round. If you would like to discuss your center’s needs, and for more information on programs and fees, please contact us.

Executive Director, Tamara L. Petro, M.P.H.
